We Make Good First Impressions

The AbilityOne Program has been caring for our federal customers' grounds and landscaping needs—manicured lawns, neatly trimmed shrubs, freshly mulched flower beds—for more than 25 years. Operating at more than 175 locations nationwide, AbilityOne and our national network of nonprofit agencies (NPAs) have the experience and the ability to keep you looking your best.

Offering best value landscape and horticultural solutions at thousands of acres of land surrounding many of our nation's federal buildings and military installations, AbilityOne grounds maintenance experts use only proven techniques and first-class equipment. Plus, you can rely on us during inclement weather for snow and ice removal or storm recovery and clean up operations.

Our customers turn to us for the following services and specialties:

- Landscape management, installation and design
- Basic grounds maintenance including mowing, trimming and weeding
- Lawn care applications focusing on turf nutrition, disease, insect and weed management
- Security and perimeter fence maintenance
- Design installation of seasonal and specialized displays
- Interior plant and floral design
- Turf renovations including dethatching, aeration, grade, seed and sod
- Display bed maintenance
- Tree & shrub care (pruning, nutrition, disease and pest management)
- Green waste management/recycling
- Slope and levee management
- Snow and ice removal

WE ENSURE SIMPLIFIED YET COMPREHENSIVE CONTRACTS

AbilityOne works hard to ensure a simplified contracting environment. We can offer a no-obligation cost proposal or partner with you to plan and negotiate an effective, cost-efficient statement of work. AbilityOne contracts eliminate re-procurement costs, repeated start-up costs and learning curves.

AbilityOne's full-time horticulturalist is always available by phone or to provide on-site technical support. Our qualified grounds maintenance experts are certified, licensed, and have specialized training.

 AbilityOne is also committed to **green initiatives and environmentally sound maintenance practices**. Utilizing mulching mowers, organic fertilizers, composting, low emissions equipment, and alternative fuels are just a few of the things we can do to help reduce our carbon footprint. Our trained grounds maintenance teams make sure your site(s) adheres to environmentally healthy, government-approved practices. Finally, AbilityOne NPAs meet standard OSHA requirements.

MEMBERSHIPS

- PLANET (The Professional Landcare Network)
- PGMS (Professional Grounds Management Society)

"[AbilityOne is] concerned with more than the 'bottom line.' What stands out to me is both the quality of the work and the attitude of the people. They daily rise to overcome challenges, do outstanding work and leave a smile as their calling card."

Colonel Randal Fullhart, Commander
92nd Air Refueling Wing, Fairchild Air Force Base, WA
